I've been working in Aerospace for 9 years, the last 4 in Quality Assurance, currently looking to change careers and get started in the field of Web Development. I am very detail oriented making me a valuable asset in my current field and in my future line of work.

EXPERIENCE

2007-2012

MANAGER, PIZZA PRO

I was the manager for a local pizza restaurant in Texas as I finished High School and started college.

2012 – CURRENT

CMM PROGRAMMER, MODELS & TOOLS

I started out at the bottom of the totem pole with the aforementioned aerospace company, worked my way up quite quickly, learning how to laser track along the way, and for the last 4 years I've been in the Quality Assurance department. During my time in QA our company has won numerous awards and accolades, most notably Elite Supplier Awards from Lockheed Martin for 3 years in a row. This award is only given out to the top 1% of Lockheed's 10,000+ global suppliers.

EDUCATION

JUNE 2009

HIGH SCHOOL, AZLE HIGH SCHOOL

I graduated with a GPA in the mid 90's, was a part of a peer assistance program (PALs), and was in advanced placement courses my entire 4 years.

JUNE 2010

DID NOT FINISH, WEST TEXAS A&M

I continued school following my first year at Texas A&M at a local community college before being offered a position at my current company after 2 years of college.

SKILLS

- Very detail oriented.
- OCD tendencies are put to good use in this line of work.
- Used to working with people of different ages/walks of life.
- Not afraid to take the lead or be a dependable asset to accomplish a task.
- I love a challenge, and am passionate about/get joy from solving problems.

ACTIVITIES

I am passionate about puzzles, music, podcasts, comedy, traveling, etc. I have been in leadership roles both in High School (as a peer assistance leader), as well as professionally (as a manager) and taking the lead on aerospace projects within my current company. I have experience with Verisurf, CATIA, & PC DMIS software.
